WAUPACA GETS NEW SKI BOAT!

Movin' The Range (Riflery, of course)

This year, due to circumstance, the riflery range had to be moved. Through the hard work of all the staff it was not as difficult as originally thought. The only person the move was especially hard for was, returning from 1972, Larry Martin, the riflery instructor. Larry had to be present at all times to supervise and help the staff do the work.

The range will not be ready for a while but classes will go on as usual. Please stay away from that area!

In Upcoming Issues.

- New comic strip, "Campers Courageous!"
- Sports
- Games and puzzles
- More feature stories
- A look at Waupaca: past, present, and future from those who know

Counsellors Welcome Campers

The staff, with a revised rendition of the song "Consider Yourself At Home" from the play "Oliver", welcomed campers to another great season at Waupaca. Warren, who had the idea, said that "this will really make the kids feel at home."

Over the winter, the camp traded in the aluminum ski boat and bought a new one. The boat is from Hetzel Marine in Waupaca.

In addition to the new ski boat, there is a new pair of water skis and a new aluminum ski dock.

"The boats are in the best working order ever", said Kal Larson, returning ski instructor Kal Larson. In addition to Kal, Rick Passman is back with two new instructors Jay Simons and Mike Kennedy.

This year there will be two ski trips and a possible new program to be announced.

As most of you have noticed there are some dogs at camp. The white one is Sundance. She is Jay's dog. The black dog is Erv's. Her name is Squeekie. And the brown dog

is Sheba. She belongs to Manny.
