CAMP OFF TO GREAT START!!

(AP) Waupaca Wisc. Camp Waupaca was off to a wonderful start after the 2 "pieces of silver machinery pulled through the gates of Camp Sunday. The heavy rains of Chicago were left behind as the campers arrived to clear skies. Unfortunately, Manny sent his message upstairs collect. The message was for clear skies and great weather for the entire season.

After a brief tour of Camp everyone assembled in the mess hall to watch a movie. Dinner was served shortly afterwards and an evening of inter-cabin sports began.

Campers spent most of the afternoon unpacking and getting set-up. Colorful sheets and blankets were in great supply and more sporting goods than all of the pro teams in Chicago appeared.

All in all a good day was experienced by all on Waupaca's DAY ONE!

2018 YEAR OLD MAN & LAMB-TURIEL TEAM PERFORM

By Tyrone Guppy

(UPI) The horseshoe swelled in laughter & song as the first program of the year went off last night with mixed reviews from the Waupaca critics.

George Lamb and Rich Turiel serenaded the camp with such hit as The Tatoo Song, City of New Orleans, Find the Cost of Freedom, and the John Denver hit, Country Roads

Then Mike Lurie introduced an old visitor from the past, the 2018 year old man. He appeared for his bi-centennial checkup at the Waupaca General Hospital and spoke of his diet, slow development, and famous persons from the past.

EARLY BIRDS OPEN CAMP UP

By "Worms" Larkin

..... Erv Kasian, who was working in California during the winter came up to Waupaca on March 27 to begin the hard task of setting up.

..... When he arrived, there was three feet of snow on the ground and his GM van could not fit in. Upon calling Manny, Erv stayed with a local family until the snow melted three days later. (Once again one of Manny's long distance calls came in handy.

..... Erv began to purchase mini-bikes for himself and settled on one for his personal use.

Erv also purchased a green VW bug for use as the "mobile tool box."

On May 1, Erv began to go over the camp and remove tar paper, old debris and assorted remnants of the vicious winter.

Erv also fixed much of the plumbing that had suffered during the winter.

Assisted by his faithful friend, "Squeaky" whose name was given because he squeaked as a pup, Erv labored diligently to show camp for what it is now--in great shape! (Ed. note: What would have happened if squeaky did some-

TRIBUNE NEEDS WRITERS

By Speedy Press

Today, a newspaper staff was born with the advent of a Newspaper class. Boys who signed up will have the fun of being the writers and editors of the Herald Tribune.

These boys will be reporting on various activities at camp, highlighting certain staff members for good or bad, (only good, tho.) and writing about the special activities that make camp a diverse place to spend a summer.

We will be accepting stories from campers and staff that are not members of the class and we do encourage other articles, puzzles, jokes and gossip about everything and anything that relates to camp.

Once a week, we will be highlighting news of the world in a special section aptly called, "News of the World."

Also any campers or staff who draw will be called on to draw cartoons or sketches for the Tribune.

We are looking for a great summer, literarily (spelling) and grammatically (spelling)
