

THE TRAILS END

CAMP  
WAUPACA

Waupaca, Wisconsin

THE WAUPACA TRAIL AND ITS MANY  
BRANCHES ARE SYMBOLS OF THE  
ACTIVITIES AND EVENTS AT CAMP  
WAUPACA THIS 1971 SEASON.

# THE WAUPACA TRAIL

A Guide to the Waupaca Trail, 1971

At this, the close of another season at Camp Waupaca, all campers leave with memories they will keep for many years to come. When a camper finds time to look back at the many things he did at camp, it's nice to have something to help him remember. That is why we have THE TRAILS END, 1971. As you turn the pages, you will see once again the Waupaca trail we walked this year. I hope we covered everything you wish to remember; however, there were so many things we couldn't fit them all in!

Oh, by the way, I'm suppose to be your trail guide, so you'll be hearing from me later on. All set, lets go . . .

## Camp Staff - 1971

A summer camp is more than just eight weeks of fun and games. It is an eight-week experience to be shared by those who make up the camp--campers and staff.

During this past summer, acquaintances were made and friendships were formed. The programs described in this yearbook were shared by all. The experiences listed in this book were enjoyed by both campers and staff.

The Camp Waupaca 1971 staff wish to join together for a final wish. We hope that you enjoyed this summer as much as we did and that the next school year may be just as enjoyable.

This yearbook is dedicated to those who made this camp season possible, the campers and staff of Camp Waupaca, 1971.

## A MESSAGE FROM MANNY

Seasons come and seasons go. This season seems to have gone faster than any in the past. It's no wonder time passes quickly with the many activities we offer. We are proud when we see Waupaca Campers learning new skills and improving on those they have learned. We hope you will keep on learning during the year. Keep your mind and body active -- do the best you can in school and keep fit.

During this season you had the opportunity to take part in swimming, skiing, small crafts, baseball, basketball, soccer, rugby, flickerball, tennis, golf, arts and crafts, art, photography, horseback riding, riflery, wrestling, track and field, archery, and tripping. Yes, this is quite a program. We are especially happy when we have boys run up to tell us how much they enjoyed a certain program. We hear praises of "how great it is" throughout the season.

Besides taking part in the above activities there were many special things such as Olympics Day, Gold Rush, Big Stick-Little Stick, Hobo Day, competition, and tribes that you were part of.

The most important part of camp besides the programming is the staff. We were pleased with all the effort the staff has given to make your summer one long to be remembered. A special thanks to Mike Euer, Assistant Director, for keeping our records up-to-date and helping the staff do a good job and the campers plan their class schedules--we are deeply grateful for all his interest in the camp and campers. To Ron Lavine for keeping us busy with competition, tribes, Olympics Day, the Blue and White War, and many special events. Thanks to Wayne Towne for heading an outstanding tripping program providing the campers with many hours of adventure. To Mrs. Clotiaux for looking after the health of the campers, we salute you. Another special thanks to Erv Kasian for heading the best crafts program and going beyond what was asked of

him in showing you a good time on the go-karts and getting camp ready by coming up earlier. To Bob Mowen for visiting with us many times and helping in the program--much thanks. Our thanks to the cooks, kitchen girls, and maintenance help for being there when we needed them. Your many hours of hard work and patience we are sure were appreciated by the campers. Thanks to Georgia Euer for her patience and keeping us up to date on supplies and answering thousands of questions. We appreciate her interest. To all the staff--thanks again for all you have done.

There is a quietness about camp without campers to shout from the athletic fields. There is a stillness in the cabins without your laughter. We hope time will go by quickly and the summer of '72 will be here soon. Once again you will hear the familiar sound of "It's a beautiful day at Camp Waupaca--you never had it so good." As usual the weather was outstanding.

We look forward to another great season with many new surprises that you will be hearing about in our camp newsletter, "The Waupaca Warrior."

Many thanks to Steve Lavine and his staff for giving us this fine yearbook. It is a job well done.

This year during parents' visiting we received the largest number of Early Bird registrations we have ever had. Everyone that went on this year's Early Bird Trip will be talking about the good time they had for many months to come.

We hope you have made many new friends. Keep in touch with them during the year--plan on getting together. If you need an address or phone number, phone us at 676-0911.

Until we meet again--it was great having you as a camper. See you at the reunion in January, 1972.

Lillian and Manny Desnet

## The Fading Trail

There is a common thread, which could be called purpose and method, that runs through every part of the program at Camp Waupaca. My aim, this year, was to clearly define each part of the camp program so that the purpose of Camp Waupaca would be made clear, and the methods that were followed would unify our staff as a great team, dedicated to the highest ideals in service. I believe that we have had a good summer and the traditions of Camp Waupaca have been preserved.

The days of camp are ending -- the thousands of memories are alive, and the colorful Camp Waupaca program is slowly vanishing from the camp we love so well. Today, as I look back, I am sad. Perhaps this is well -- but what of camping, classes, tribes, special activities, crafts, and new-found friends? These, too, are ending for another summer.

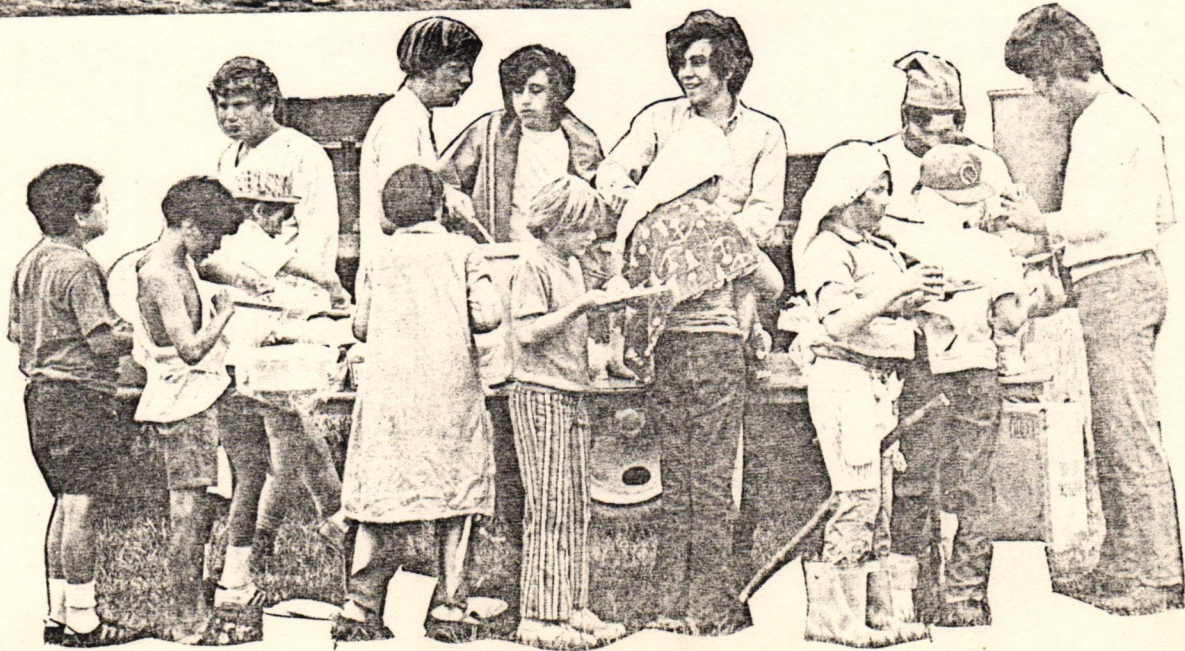

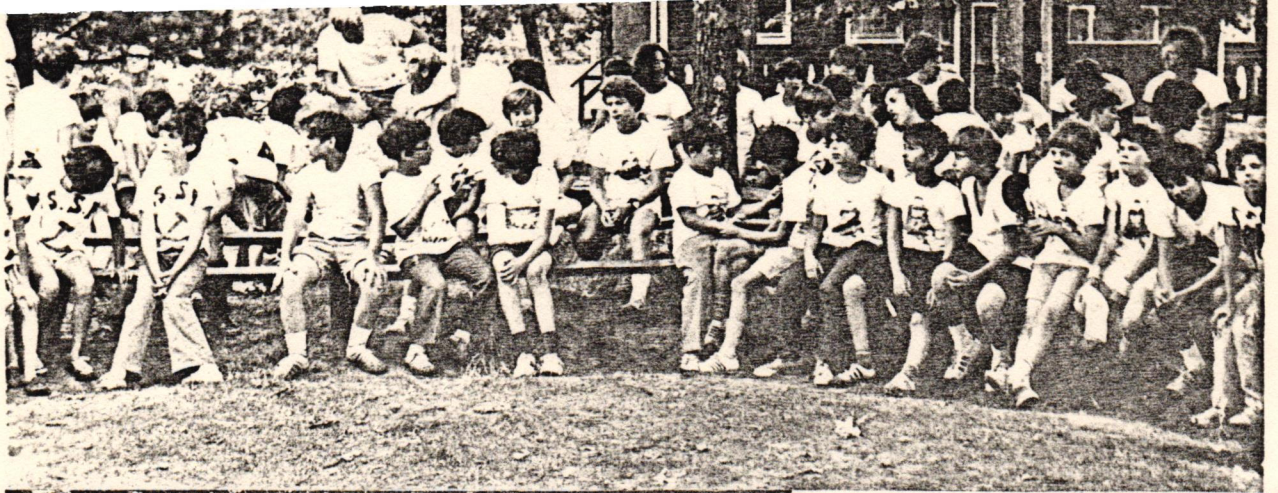

As Assistant Camp Director, I will be thinking of summer, and its many memories will be lasting. As campers, you, too, are interested in keeping alive the beauty of camp life -- through memories, letters to counselors, and, of course, the January reunion. It is to you that I dedicate this summer of service -- as a tribute to those boys who love camping as I do. With my many friends in mind, I pledge my continued support to you in offering whatever help I can in the months to come.

In conclusion, I wish to give a special thanks to Manny for being so understanding in all my decisions and for backing me up as needed. Also, I wish to give special credit to Ron Lavine for a great job well done. Ron, as Program Director, has planned and carried out one of the finest programs any camp could ask for. We were lucky to have him on our staff this year.

Until next year . . .

Mike Euer,  
Assistant Camp Director

CAMP WAUPACA PROGRAM - 1971
