

FACES

MINI BIKES

Another summer of thrills, spills & fills, and repairing the best mini-bike program anywhere! Steve Dudzak allowed freedom for his classes while Sean ruled with an iron fist & controlled the track with his big yellow machine.

During the first four, Bobby Berland wins the award for best rider, Jon Kully & Josh Reingold for most adventurous, Jason Belenke wins for the "mini-est" man on a bike. Greg Sklar arrived as the Coco Cola kid. Chas. Friedberg always wondered how many times the kids had gone around. Many boys learned about the mechanics & inner workings of the bikes and the finer points of riding.

Speed, speed, speed! What a second four weeks! Carlsbad California may well lose its title as motocross capital of the world to US! Over 90 campers raced over the trails this 4 weeks, many never rode before! Though the stable contained 5 bikes, frequent repairs were needed. Still, the boys piled on the miles!

We always stressed safety first. No one was allowed without a helmet or long pants. It paid off; we had no serious injuries, just some hurt pride when a boy came in with a scrape.

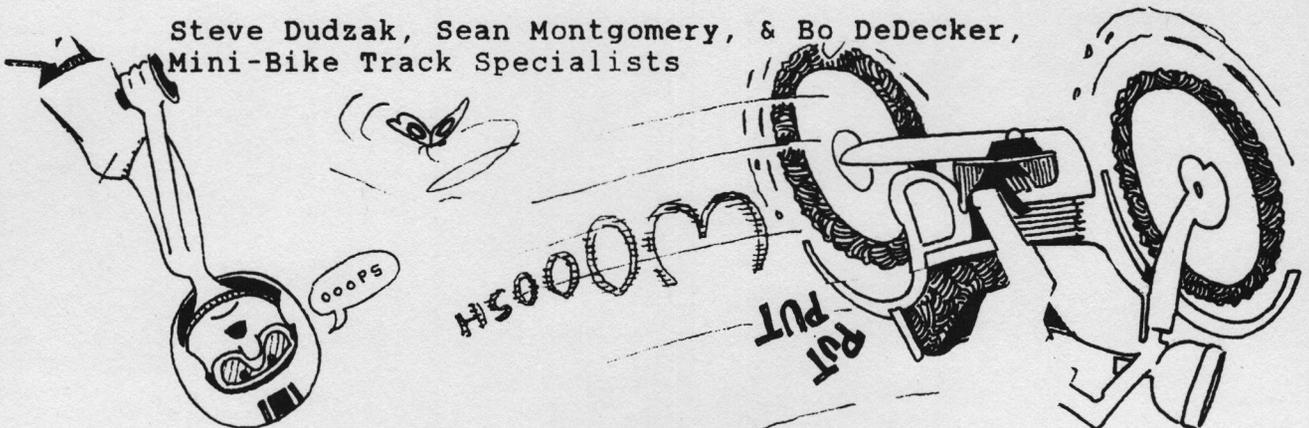

The ranks of our riders included the flying Clarke brothers (Chris & Dave) along with flying' Mike Zimmerman, jamming' Jeremy Faust, rocking' Brett Levine, and iron man Seth Goldberg.

Throughout the four weeks, several unusual events took place. Aaron Kramer piled into Sean's motorcycle. Two spills & chills awards go to Matt Karlin (who smiled though it all) or Scott Nasatir who liked to stop the bike with his body. Ross Auslander gets the "feat" of the year by taking the moguls at full speed. Dave Heller's voice is unforgettable as pleaded, "Please let me take one out, you promised!"

Speed demon of the year goes to Jason Merel for taking the track at blazing speeds! Among the other outstanding riders were Steve Millman, Benjy Lipsman, Mike Komessar, Josh Taustein, Stewart Auslander, Keith Radeke, Brett Levine, Doug Breen, Mike Brichta, Jeff Kurtz, Ronnie Goldberg, & Matt Glick.

In all it was fun summer on our mini-bike trails. We got some sun, made lots of new friends, and had a fun & safe time!

Steve Dudzak, Sean Montgomery, & Bo DeDecker,
Mini-Bike Track Specialists

PHOTOGRAPHY

This year the photography classes were revived after a two year dormant period. Marc Lockett & Jeremy Smollar displayed unusual subjects in their photos. Laster Aaron Schwartz joined the class & added more "wild life" subjects to the class. 5th period added developers Ethan Beigel, Alex Jacobs, & Mike Klong to the list of enlarger users. Some of the photos were taken in color so the boys will have to wait until Mr. Kodak reveals his secrets!

4th period consisted of Jon Newman, Jeremy Faust, & Mike Komessar. We had lost of fun canoeing & taking shots. Dr. Kennedy's park was especially fun except for the hot feet on the pavement. 5th period saw Brian Grabiner & Russell LeBoyer as dedicated shutterbugs. Brian always showed up on time through thick & thin!

With camera in hand, the AM photography class forged ahead determined to capture nature in its truest form; if we couldn't, then we would waste some film!

The 1st period class saw the man of speed, Justin Gurvitz, change his film at the speed of light. Too bad he exposed the film by taking off the back of his camera. Matt Glick got the experience and a few pictures to take home but the "photo star" of the class was Marc Portugal who mastered every step from taking the pictures to developing them. He also spend some free times dedicated to his craft!

We had a live five during 3rd period consisting of Brandon Ross, Jeremy Smollar, Randy Nasatir, Jason Goldberg, & Marc Grozalsky. They learned how all the important steps & caused the teacher lots of stress. Jordan Klow, master of the twist reel, had a class to himself. The extra time allowed him to try some special developing techniques.

A pair of Brians, (Raff & Horowitz) worked well together. I hope the "Rafter" doesn't blame the air conditioning for his sneezing.

All in all, photography had a great many personalities for a picturesque summer!

David "Lens" Euer
Bob "Spike" Delzell
Shutter Bugs

RIFLERY

Well, it was summer again & the smell of burning gunpowder filled the air. I love the smell of sulfur in the morning; it's CAMP!

Another season of camp began and I was shocked to see how much work had to be done! No target holders, high grass & lots of debris called for hard work before the campers arrived!

As we began the 1st four, a few boys showed exceptional skills: Zachary Abraham, who never shot before, achieved remarkable scores in the 40's. Angelo Licari at the tender age 7 also shot well (in the 40's on occasion)! Marc Weiner wins the biggest award for whiner about awards. Jon Sills still "burns" me up about burning gunpowder. Jon Shulkin always made me happy whenever I scored his targets; when he did they usually added up to 50.

Now it is time for my annual Rambo Child awards: Jon Kully, Chris King, Aaron Schwartz, Jason Millner, Marc Portugal, & Brian Horowitz. I would also like to thank my assistants, Matt Silverstein, Dan Jelinek, Brian Hoffman, Justin Gurvitz, and Jon Gordon! Another award should go to Chris Clarke, who had never shot a gun before coming to camp, ended up consistently shooting 40's (out of 50) and getting his Bar 1.

SOFTBALL

Dan "Grand Slammer" Schmidt (famous half brother of Mike) scouted three classes of future Cub greats. Danny "I win your canteen" Chaimson was the big stick for 3rd period, while Shaun "I'll never take off this Philly's hat" Romisher found a way to win the "500" games with relatively little effort.

Danny "Ernie Banks" Jelinek liked to ump more than hit. Joey Silverman, Danny Norris, and Brett Pine rounded out a great bunch of ball players.

4th period was loaded with talent and pranksters. Gavin Greene liked to hit to right field thus earning his comparison to Ellis Burks. Sean Fox was always a home run threat as was Shelby Leland. Brad Eisenberg was a flawless fielder at shortstop and Jordan, "We still got 'em" Batt had a blast at first base.

5th period was awesome to say the least. Ted Greene was most dedicated & eager to learn and started ripping the ball with authority as classes wound down. Bobby Berland found amusement through water bottles. Matt Tenny loved running those bases and Mike Hornick adored the shade!

Coach Schmidt would like to compliment all the classes for their enthusiasm & zest for "America's Greatest Pastime!"

Dan "Grand Slam" Schmidt

TENNIS

It's been a hot summer on the courts in 1988. Hot with both competition & excitement, not to mention the blacktop temps hitting over 120 degrees!

Classes started off with drills for backhands & forehands, then eventually serving & volleying. As the classes progressed, challenge matches were played between players of equal ability. Also emphasis was placed on proper court etiquette to insure maximum enjoyment for all players.

Everyone knows that tennis is the sport of kings, and this year the kings of the court were Charlie Friedberg for the first 4 and Aaron Kramer, Keith Radeke, Jon Sills, & Chris Clarke for the 2nd four. These were campers who started their summers with rudimentary skills and mainly worked on developing spin shots, court placement, and ground strokes.

Special recognition goes to Angelo Licari for being the most improved player of the season. He'll be awesome when he is finally able to see over the net!

Kudos to Shaun Romisher for being the most promising. At 8 years old, he has not problems hitting with the older boys, even the CITs.

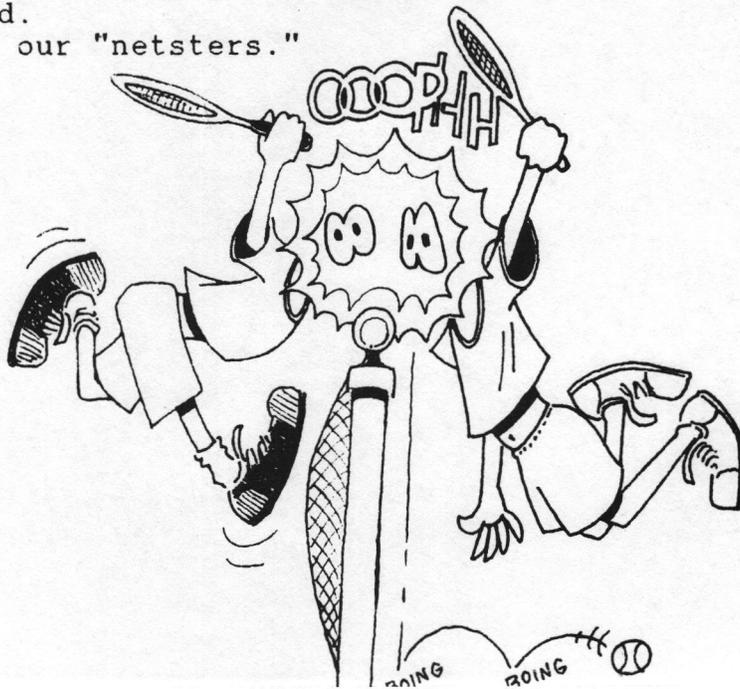

Congrats to Gavin "Spazo" Greene for being the only camper to persevere for 8 weeks on the courts. Marc Weiner receives the laurels as Mini Tennis or Pepper Stud.

Improvement is the name of the game for our classes and noticeable results were demonstrated by Adam Bazer, Jon Merel, Ted Greene, Dan Shapiro, Brian Raff, Shelby Leland, Chad Saffro. Also improved were Scott Portugal, Jared Palmer, Jordan Batt, Robbie MANDel, JASON Millner, Jeff Kurtz, Chris Gola, Curtis Klaus, Craig Gilbert, Mike Nitekman, & Jason "Peanut" Drexler.

In addition to regular class play, we had a terrific camper-counselor tournament during the 2nd four weeks. 16 teams worked their way through to the finals pitting Doug Ramich & Chris Clarke against Jeff Turnbull & Jonathan Sills. It was a tight match but the consistency of Turnbull & Sills prevailed and the champions were crowned.

Good luck to all our "netsters."

Darrel Chvoy,
Tennis Pro

SKIING

It has been estimated that more than 18 million Americans water ski each year. Why is water skiing so popular? Here are a few reasons I can think of: It's a great family sport, a lifetime sport for both male and female. It's a good exercise. It allows one to safely experience the exhilaration of speed. It offers a variety of different kinds of skiing, and it can be recreational or competitive.

Certainly the program at Camp Waupaca could be described as instructional and recreational. In addition to learning basic skills, our campers are taught the art of skiing on one ski, "the slalom". The progression of skills was formatted by the American Water Ski Association; this program has been very successful in assisting our campers to fine tune their abilities. But no program can exist without the experience and skill of its instructors. The summer of 1988 will long be remembered as having one of the finest ski staffs. Let's begin with 2 of our very special CIT's; Charlie Friedberg and Brett Schwartz. They spent a part of the 5th week assisting new skiers in the water; thank you Charlie and Brett. How about a big round of applause for our ski staff: Doug Ramich, Matt Schull, Daryl Baertlein, Dennis Bravick, and Rob Roloff. These guys put themselves out 100%; from driving the boats, helping campers put on skis, dry land instruction, record keeping, maintenance on the equipment, providing a lot of praise and encouragement, in and out of the water.

This year, as in the previous years, water skiing has remained the single most popular class in the camp: yes, even more popular than dramatics or computers. Speaking of dramatics, special recognition must be given to Zeus and his elaborate entrance to beautiful Lake Stratton on the first day of our Olympic program. The entrance was quite quite windy (very similar to the dramatics director). It was a very exciting time as Zeus arrived on an AIR BOAT (Ed. Note: It's a hovercraft, not an AIR BOAT) provided at great expense by our friends at the Chain O' Lakes Marine.

So long again from beautiful Lake Stratton; which by the way is: Spring Fed, Sand Bottomed, Crystal Clear, and Glacier Formed. Once dredged by the Clem & Caldwell Corporation. We had a great time with you boys; see you next summer.

NEW SKIERS

Congratulations to all the new skiers for 1988!

ADVANCED BEGINNER IN SWIMMING

The following campers have taken the prescribed course and have learned a series of swimming skills that have enabled him to perform the following: Dive into deep water, swim 15 feet underwater, surface, tread water 1/2 minute, and swim crawl stroke for 20 yards. Jump into deep water, surface, perform 2-minute survival float, and swim elementary backstroke, 20 yards.

BRIAN GRABINER	DAN GENENDER	BRENDON SKLAR
MIKE BRICHTA	JASON SIEGEL	STEVE MILLMAN
MARC GROZALSKY	GAVIN GREENE	JEREMY FAUST
JASON MILLNER		

INTERMEDIATE SWIMMER

The following campers have performed the following skills: (1) elementary backstroke, crawl stroke, sidestroke; (2) treading water; (3) sculling; (4) turns; (5) survival float; (6) standing front dive; (7) underwater swimming; (8) rescue skills; (9) five-minute swim.
